## Public review on proposed changes to the 2020 National Model Codes – Fall 2022

The Canadian Commission on Building and Fire Codes (CCBFC) is inviting the public to take part in the first public review of proposed changes to the 2020 editions of the National Model Codes, including the National Fire Code of Canada.

This national public review takes place from **October 24 to December 23, 2022**.

The purpose of this public review is to:

- provide Code users and stakeholders with a detailed look at proposed technical changes; and
- seek comment on each proposed technical change as to whether it should be approved, altered, or rejected.

Ontario stakeholders are encouraged to participate in this review, as the outcomes of the consultation will be considered in the development of future proposed amendments to the Ontario Fire Code.

Public reviews for future sets of proposed changes to the 2020 editions of the Codes are also planned to take place in 2023 and 2024.
